

SCAR Ant-ICON | SC-ATS science-policy fellowship

Código de Beca:	4139
Nombre:	SCAR Ant-ICON SC-ATS science-policy fellowship
Descripción:	<p>We are pleased to announce the inaugural SCAR Ant-ICON SC-ATS science-policy fellowship programme for early-mid career researchers (EMCRs). The aim of the fellowship programme is to provide the opportunity for EMCRs to gain experience in the science-policy interface from participating in Antarctic policy forums through the preparation and potential submission of a science/policy paper based on their research, in collaboration with SC-ATS. The fellowships are open to early-mid career researchers from all SCAR member countries. Preference will be given to researchers who have not previously participated in these meetings and are actively seeking to contribute.</p> <p>The fellowship programme will fund two fellows in 2023: one to participate in the CEP/ATCM meetings in Helsinki, Finland from 29 May 2023 - 8 June 2023 (expected start date in early February 2023), and one to participate in the SC-CAMLR/CCAMLR meetings in Hobart, TAS, Australia in 16 - 27 October 2023 (expected start date in April/May 2023). There may also be opportunities to participate in additional online meetings or activities related to these forums.</p>

Tipo de beca:	Parcial
Fecha de vencimiento:	16/01/2022
Requisitos:	<p>Fellowship eligibility:</p> <ul style="list-style-type: none">•Applicant must be an EMCR (up to 15 years post PhD, accounting for research breaks);•Applicant must be actively working in Antarctic research with relevance to either CEP/ATCM or CCAMLR;•Applicant must have the support of their employer and/or supervisor (if relevant) to undertake the fellowship (i.e., the time commitment required for preparing for and attending the meeting). <p>Research areas:</p> <p>Relevant research can be aligned with any of the priority areas identified by the CEP/ATCM or by CCAMLR, or related to an emerging issue that should be brought to the attention of policymakers.</p> <p>Target group:</p> <p>The fellowships will be open to early and mid-career researchers (EMCRs) from all SCAR member countries. It is acknowledged that both early and mid-career researchers may lack the opportunity to participate in Antarctic policy forums.</p>

EMCRs are in the process of shaping their future careers, and this fellowship programme aims to support them in that process to ensure that they will remain active in the Antarctic community and further develop their and others' policy knowledge and skills.

Beneficios:

Number of fellowships offered:

Ant-ICON and **SC-ATS** will jointly support two fellows each year: one participating in the Commission for the Conservation of Antarctic Marine Living Resource (**CCAMLR**) and Scientific Committee of **CCAMLR** (**SC-CCAMLR**) meetings; and the second participating in the Antarctic Treaty Consultative Meeting (**ATCM**) and Committee for Environmental Protection (**CEP**) meeting. The fellows will attend the meeting(s) as members of the SCAR delegation.

Financial support provided:

Ant-ICON and **SC-ATS** will jointly support the fellow's attendance at the meeting (travel, accommodation, daily subsistence). Funding will not be available to support the time spent toward preparing for and attending the meeting (i.e., salary hours).

In-kind support provided:

For each fellow, the Ant-ICON and **SC-ATS** Steering Committees will identify one or more SCAR researchers as a suitable mentor(s), who may be a part of the **Ant-ICON Steering Committee** or **SC-ATS**, a member of another relevant SCAR group, or a member of a national delegation to the ATCM or CCAMLR. The mentor(s) will:

1. introduce the fellow to Antarctic policy issues and governance structures by providing them with appropriate background information and documents,
2. support the fellow through the process of preparing their work for submission to the relevant meeting,
3. support the fellow in making contact with their national delegation (if possible) prior to the meeting to ensure they are aware of the fellow's engagement in the meeting through SCAR, and
4. support the fellows during the meetings by introducing them to other delegates (undertaken by the mentor(s) or other members of the SCAR delegation as appropriate).

Lugar de postulación y documentación a presentar:

How to apply:

Please fill out the online application form before January 16, 2023, 23:59 UTC.

Ofrecimiento N° 4139.1

Nombre ofrecimiento: SCAR Ant-ICON | SC-ATS science-policy fellowship

Información específica: **Extended information**

The Ant-ICON Steering Committee and the Standing Committee on the Antarctic Treaty System ([SC-ATS](#)) acknowledge that limited knowledge of Antarctic policymaking and a lack of opportunities for engagement may create barriers for Antarctic researchers seeking to participate in Antarctic policy forums. This can be particularly challenging for early to mid-career researchers, especially those from emerging Antarctic nations. To help build capacity in the provision of scientific knowledge to inform policymakers, Ant-ICON and [SC-ATS](#) will provide joint funding for the establishment of an annual science-policy fellowship scheme.

Fellowship aims:

1. To provide opportunities for early-mid career researchers (EMCRs) to contribute to, and gain experience from participating in, Antarctic policy forums, including through the potential submission of a science/policy paper based on their research, in collaboration with [SC-ATS](#);
2. To build capacity among the Antarctic community, particularly in emerging Antarctic nations, towards improved policy literacy, research impact, as well as the development of transferable skills and exchange of crucial institutional knowledge and experience.
