

Stipendium Hungaricum Calls for Applications - 2024/2025

Código de Beca: 4791

Nombre: Stipendium Hungaricum Calls for Applications - 2024/2025

Descripción: **Mission of the Programme**

The Stipendium Hungaricum Scholarship Programme was launched in 2013 by the Hungarian Government with the aim of providing opportunities for international students to pursue their higher education studies in Hungary. The programme's core mission is to increase the number of international students in Hungary and encourage Hungarian higher education institutions to attract top international students.

The scholarship programme is managed by the Ministry of Foreign Affairs and Trade and co-ordinated by Tempus Public Foundation. The programme is based on bilateral educational cooperation agreements signed between the Ministries responsible for education in the sending countries/territories and Hungary. Currently, more than 90 Sending Partners are engaged in the programme on 5 different continents, and the programme's geographical scope is widening each year.

The scholarship program offers both full degree and partial study opportunities in the three-cycle degree structure (bachelor's, master's and doctoral programmes), mostly in the English language; however, other foreign language study programmes are also available in the framework of the Stipendium Hungaricum Scholarship Programme. Students can also apply for a one-year Hungarian language preparatory training course, following which they can pursue their higher education studies in the Hungarian language.

Stipendium Hungaricum scholarship holders are encouraged to focus on their academic advancement during their stay in Hungary, as all their tuition fees are covered, and their accommodation and living costs are supported as well. Upon finishing their studies, a European degree in hand provides graduates with a wide range of opportunities in the global job market.

During the past decade, the Stipendium Hungaricum scholarship programme has become a brand in its own right, demonstrating Hungary's commitment to supporting international education and cultural exchange. The programme's success is a testament to the quality and competitiveness of Hungarian higher education and the country's commitment to science diplomacy.

Hungary has significantly increased its international development commitments through the programme, making it a valuable tool for promoting development and growth in partner countries. The programme has also enabled Hungary to provide support and opportunities for students affected by the war in Ukraine through the Students at Risk sub-programme, showing its flexibility and

adaptability in a time of need.

The programme plays a crucial role in strengthening bilateral relations not only between Hungary and partner countries but also between higher education institutions. Additionally, the programme allows students to showcase Hungary's cultural heritage and promote cultural exchange between nations.

Since 2013, the number of Stipendium Hungaricum scholarship holders has grown significantly, at the same time increasing the ratio of self-paying international students in Hungarian universities. Between 2013 and 2019, the ratio of international students studying in Hungarian higher education institutions has doubled, and the ratio of Stipendium Hungaricum scholarship holders among them has quadrupled. As a result, the number of study programmes taught in foreign language(s) has tripled in Hungarian universities since 2015. The number of Stipendium Hungaricum applicants and awardees is continuously increasing, as well as the number of available scholarship places. In 2023, more than 57,000 applications were received, and nearly 4,500 scholarships were awarded, showing that since its launch, the Stipendium Hungaricum scholarship has become a programme of excellence.

Study Levels

Stipendium Hungaricum scholarships are available for bachelor's, master's, one-tier master's, doctoral, non-degree programmes (preparatory courses) and postgraduate specialist training courses. **Please note that this Call for Application is for bachelor's, master's, one-tier master's, non-degree programmes and postgraduate specialist training courses only.** Please find the Call for Applications for the doctoral level [here](#).

Important note: applications are only accepted for bachelor's, master's, one-tier master's, non-degree programmes and postgraduate specialist training courses OR doctoral programmes; therefore, please consider carefully your selected programme(s).

Note about one-tier master's programmes and postgraduate specialist training courses:

In the Hungarian education system, one-tier master's programmes cover both the bachelor and the master level of studies; therefore, it is an undivided master's programme that results in a master's degree. These one-tier programmes are offered in specific study fields such as general medicine, pharmacy, dentistry, architecture, law, veterinary surgery, forestry engineering, etc.

Postgraduate specialist training courses provide the opportunity to obtain a specialized qualification after a bachelor's or master's degree. Preparatory courses are not available for postgraduate specialist training courses.

Study Modes

Both full degree and partial (exchange) study modes are available in

accordance with the relevant bilateral educational cooperation agreement. Full degree programmes lead to a bachelor's, master's or doctoral degree. One-year programmes do not lead to a degree but provide a preparatory course before a degree programme.

Partial (exchange) studies are one or two semester long exchange studies. If the partial (exchange) studies are part of the student's degree studies in their sending higher education institutions, those who apply for partial (exchange) studies must be registered and have student status at a higher education institution operating outside of Hungary. In this case, applicants can only apply to those study levels they are attending in their sending, home institutions (i.e., doctoral level).

In case partial studies are not part of the student's degree studies in their sending higher education institutions, a student status at a higher education institution operating outside of Hungary is unnecessary.

Partial (exchange) studies are available for up to one academic year, must be completed by 30 June and cannot be extended.

Please be extra cautious when selecting your preferred study programmes in the online application system as most of the study programmes are offered as both full degree and partial study programmes; therefore, those programmes appear twice. Please make sure that you select the programme marked with the study mode you desire because it is impossible to change the study mode after the application deadline.

Available Host Institutions and Study Programmes

1. At these levels, 30 Hungarian higher education institutions are engaged in the Stipendium Hungaricum Programme for the 2024/2025 academic year, with about 800 study programmes in foreign languages (taught mainly in the English language). Study programmes are generally available in the English and Hungarian languages, with some programmes offered in German and French as well.

The available study programmes and Host Institutions are accessible in the online application system (<https://apply.stipendiumhungaricum.hu/>).

Please note that you can only apply for these study programmes within the framework of the Stipendium Hungaricum Scholarship Programme.

2. Applicants are eligible to apply only for those scholarship types and study fields that are determined in the educational cooperation programmes in effect between Hungary and the specific Sending Partner. **Please see the full list** of available study fields regarding your sending country here: <https://stipendiumhungaricum.hu/partners/>
Applicants who are citizens of a country that has entered into a cooperation agreement with Hungary both independently and as part of a larger alliance may choose any framework but may only apply for the courses included in the given framework.

Requisitos: **Eligible Sending Partners**

The Stipendium Hungaricum Programme is based on effective bilateral educational cooperation agreements between the Hungarian Ministry of Foreign Affairs and Trade or its legal predecessor as regards the Stipendium Hungaricum Scholarship Programme, the Ministry of Human Capacities, and the partner's Ministry responsible for higher education. Applications will be considered eligible only if the responsible authorities of the Sending Partner nominate the applicant.

Non-eligibility

Applications will not be considered in the following cases:

- **Hungarian citizens (including those with dual citizenships), stateless persons, refugees, protected individuals, asylum-seekers, admitted individuals, migrants, settled persons, and those who do not fall within the scope of Section 39 (1) a) of the Higher Education Act**

Please note that this requirement is not only for applicants but for Scholarship Holders as well; it means that, e.g., if you obtain Hungarian citizenship or refugee status during your studies in Hungary, you automatically lose your scholarship status.

- Applicants with citizenship different from the sending country/territory. For example, only Brazilian citizens can apply through the Brazilian Sending Partner,
- Applicants born after 31 August 2006 (= applicants under 18 years old as of 31 August 2024 **except** applicants applying for Dance study programmes,
- Applicants applying for a doctoral programme within the SH programme in the same application round,
- Those applicants who are registered self-financed / fee-paying students of a Hungarian higher education institution at the time of the application deadline AND who are applying for a study level below their self-financed studies. It means that self-financed master students of a Hungarian higher education institution cannot apply for bachelor studies.

Those former Stipendium Hungaricum Scholarship Holders who were **awarded scholarships for full degree studies** and who

- are now re-applying for full degree or partial (exchange) studies **in the same cycle or lower level of education** (non-degree studies, bachelor, master, one-tier master level) **–(therefore, those Stipendium**

Hungaricum Scholarship Holders can apply for the programme who wish to continue their studies at a higher level of education, e.g., bachelor Scholarship Holders can apply for master studies!)

- - or who are now re-applying for the programme for any cycles of education while they still have a scholarship status at the time of application (unless they withdraw their former scholarship before the application deadline) and will not receive their degree until 31 August 2024
- or who have postponed the start date of their scholarship studies and did not withdraw their scholarship before the current application deadline.

Those former Stipendium Hungaricum Scholarship Holders who were **awarded scholarships for partial (exchange) studies** and who

- are now re-applying for partial (exchange) studies in the same cycle or lower level of education (non-degree studies, bachelor, master, one-tier master level) –(therefore, those Stipendium Hungaricum Scholarship Holders can apply for a higher level of education, e.g. former bachelor Scholarship Holders can apply for master partial (exchange) studies if they are now master students in their home countries!)

Those former Stipendium Hungaricum Scholarship Holders who were awarded scholarships in the 2021/22, 2022/23 or 2023/24 application round, but after accepting their scholarship, did not travel to Hungary and did not start their studies, nor did they notify Tempus Public Foundation of this fact until 31 August. This clause also applies to those former Stipendium Hungaricum Scholarship Holders who have postponed their scholarship awarded in the 2022/23 application round but did not travel to Hungary and did not start their studies next year, nor did they notify Tempus Public Foundation of this fact until 31 August.

- Please note that it is only possible to re-apply for full degree scholarship studies in the same education cycle if the former Stipendium Hungaricum Scholarship Holder was previously awarded partial (exchange) studies. Even in this case, the length of the full degree scholarship shall be reduced by the length of the previous partial (exchange) studies.

Important note for self-financed students already studying in Hungary:

Those applicants who are **registered self-financed / fee-paying students** of a Hungarian higher education institution at the time of the application deadline **AND** who are now applying for the same study level are only eligible to apply for the Stipendium Hungaricum programme if they are recommended by their Hungarian host universities where they are studying at the time of application, **AND**

if their cumulative, corrected sum average (“összesített korrigált kreditindex”) is higher than the students’ average performance in the particular study programme (“szakátlag”).

For example, self-financed master students enrolled in Hungary can apply to continue their studies with the scholarship on the same master level only if they

are recommended by their university and their cumulative, corrected sum average is above average. Please see further details about the optional application documents in Section (**Additional documents for self-financed applicants who wish to continue their studies with the scholarship**) of the Call for Application.

Applicants for the Students at Risk Subprogramme are requested to read carefully point 4. which contains the special conditions applicable to them.

Order of Selected Study Programmes

In addition to the first choice of study programme, there is an opportunity to apply for an additional, second study programme. Therefore, each applicant can apply for **up to TWO different study programmes, in order of preference**.

These two study programmes can be both at the same Host Institution and different Host Institutions; it is the applicants' decision.

The order of preference is essential. During the application process, the first selection and examination procedure will be conducted for the study programmes selected as the applicants' primary choices. These primary choices will be considered first, and then, **only the remaining free places will be filled with those applicants who are not approved for their primary choice of programmes**. In this way, the chances of receiving the scholarship are relatively higher for the study programmes selected as primary choices because there are more free places at that time.

Please note that the applicant cannot change the selected programmes (including the study language and the study mode!) and the order of preference after the application deadline! We strongly advise all applicants to carefully check the minimum entry requirements of the study programmes and take time to decide on the order of the two programme preferences. We also highly encourage the applicants to increase their chances of receiving the scholarship by applying for not only one but two study programmes in total.

Language of Study Programmes

Applicants are eligible to apply only if they meet the minimum language criteria set by the chosen Host Institution. Please visit the online application system (<https://apply.stipendiumhungaricum.hu/>) to see the exact language criteria for each study programme!

For Study Programmes taught in English and other foreign languages

Full degree studies and partial (exchange) studies

minimum level of knowledge - level of English proficiency determined by the Host Institution

language preparatory year - none

Study programmes taught in Hungarian language

1) applicants with at least an intermediate (B2) level of Hungarian language knowledge

minimum level of knowledge - level of Hungarian proficiency determined by the Host Institution

language preparatory year - none if the language certificate is uploaded

2) applicants with basic or no Hungarian language knowledge - **Only for full degree studies** (unavailable for partial exchange studies)

minimum level of knowledge - level of English proficiency determined by the Host Institution usually basic level

language preparatory year - yes, obligatory one-year Hungarian language preparatory course

Note about language choice in the online application system:

By default, the online application system lists the study programmes as foreign language programmes. However, if you wish to start your studies at a full degree programme in Hungarian language, you need to answer the "Would you like to perform your studies in Hungarian at the selected full degree programme?" question on the application form with "Yes, I would like to perform my studies in Hungarian at the selected full degree programme." If you select this, you can only be considered for the full degree selected programme in the Hungarian language; therefore, please be cautious when filling out the online application form. If you apply for a Preparatory course in Hungarian language, please select the following answer: "No, I would not like to study in Hungarian at my full degree programme."

Studies in English or Other Foreign Language

Students shall have a level of proficiency in the language of education as required by the Host Institution. The applicants must directly apply for the study programmes in the online application system.

Studies in the Hungarian Language

Those applicants who wish to perform their studies in Hungarian language need to have sufficient language level. A copy of the proof of Hungarian as a foreign language knowledge has to be uploaded as part of the application in the online system. The level of Hungarian language skills will be tested during institutional entrance examinations. Please note that if you apply only to Hungarian study programmes directly, but fail the language test, you cannot be admitted to any places.

Those applicants whose language skills are not sufficient to complete their studies in Hungarian shall complete an obligatory one-year preparatory language course of Hungarian before starting their degree courses. For this, the applicants are usually required to have at least a basic level of English proficiency. In the online application system, the applicants need to apply directly for the preparatory course (and NOT for the degree programme they wish to start after the language preparatory year). To see all Hungarian language preparatory courses and entry requirements, please check the online

application system (<https://apply.stipendiumhungaricum.hu/>)

Hungarian as foreign language

In the first year of their studies, Scholarship Holders are required to attend the course of „Hungarian as foreign language” offered by the host university, and to pass an exam at the end of the second semester (except Scholarship Holders studying in Hungarian language). Scholarship holders who do not attend the course will not be able to receive the monthly stipend (mentioned at **Provisions Covered by the Scholarship**). The monthly stipend for students who take the course but fail to pass the exam will be reduced to 30,000 HUF/month.

Preparatory Courses and foundation semester/year

Besides full degree programmes, full-time non-degree programmes are also available within the programme in certain cases, for up to one year. Please read this section if you are applying for study programmes in the field of Music, Engineering or Computer Science and Information Technology.

Preparatory courses are non-degree programmes before starting a bachelor or master level degree programme at a Host Institution (both with the scholarship).

Regarding the preparatory courses, applicants can ONLY apply for Hungarian language preparatory programmes. Even these preparatory courses can ONLY be applied for if the student wishes to continue his/her degree studies at a Hungarian language programme after the preparatory year. After completion, it is not possible to continue the studies in English or other foreign languages. Please see Section **Studies in the Hungarian Language** for further details about this.

However, ONLY in the case of English language full degree study programmes in the fields of Engineering and Music and Dance or Computer Science and Information Technology during the institutional entrance examination process and based on the professional evaluation of the applicant, the Host institutions have the right to decide to admit the applicant for a foundation semester/year before they can start their full degree programmes. It is only available for a foundation semester/year before bachelor and master-level programmes in Engineering, Music or Computer Science and Information Technology. Therefore, applicants cannot directly apply for a foundation semester/year in English; it is always the Host Institutions' decision whether a professional preparation year is necessary.

Beneficios:

Registering with an e-mail address that works properly and that the applicant reads frequently is strongly recommended. In case there is a change in the address – including during the study period in Hungary – the host institution and Tempus Public Foundation should be immediately informed and be provided with the new e-mail address by the applicant/scholarship holder. It is always the responsibility of the applicant and the student to manage his/her e-mail account and read the letters regularly. Tempus Public Foundation is not responsible for the malfunctioning of the registered e-mail account. Please avoid using, for example, a Hotmail or a Yahoo account because, in that case, letters from Tempus Public Foundation usually go to the Spam folder. We strongly advise you not to give your current institutional e-mail address, which may change after the start of your scholarship.

The information provided on the application – including the study programmes and their order of preference – cannot be changed after the application deadline. By applying, the applicant declares that all information provided in the online application system of Tempus Public Foundation – including the content of all uploaded documents – is true and correct to the best of their knowledge and belief. The applicant can withdraw his application in the DA system at any stage of the procedure. However, this decision is final; there is no possibility to cancel the withdraw

C) Additional documents for self-financed applicants who wish to continue their studies with the scholarship

Those applicants who are registered self-financed / fee-paying students of a Hungarian higher education institution at the time of the application deadline AND who are now re-applying for the same study level are only eligible to apply for the Stipendium Hungaricum programme in cases listed in Section 2.2. about non-eligibility.

Apart from the requirements about the average performance of the applicant, they need to be recommended by their Hungarian host universities where they are studying at the time of application. Therefore, we recommend that all of these applicants contact their universities and discuss whether the university wishes to recommend them for the scholarship.

If you are recommended, please request a recommendation letter from the Hungarian Host Institution and upload it to the online application system by 15 March 2024.

D) Missing Documents

All documents listed in "Application Documents to be Submitted to Tempus Public Foundation" are **mandatory** application documents. However, certain documents are accepted to be uploaded even after the application deadline, **provided that** the applicant could not obtain the document by the application deadline.

In this case, the applicants must upload a signed declaration stating that they will obtain and upload the missing document(s) by 1 August 2024 at the latest. Please note that Tempus Public Foundation provides no form for the declaration; it can be written by the Applicant. No missing document will be accepted if the declaration is not uploaded by 15 January 2024, 2 p.m. and/or if the missing documents are not uploaded by 1 August 2024; thus, such applications will be rejected automatically.

The following missing documents can be submitted after the application deadline but no later than 1 August 2024.

Ofrecimiento N° 4791.4

Nombre ofrecimiento: Non-degree programmes

Información específica: Preparatory course in Hungarian language

Duration: Full time 1 year

Qualifications at the end of programme - Certificate

Postgraduate specialist training courses

Duration:

Full time 1 - 2 year

Partial 1 or 2 semesters

Qualifications at the end of programme - Certificate

Note about one-tier master's programmes and postgraduate specialist training courses:

In the Hungarian education system, one-tier master's programmes cover both the bachelor and the master level of studies; therefore, it is an undivided master's programme that results in a master's degree. These one-tier programmes are offered in specific study fields such as general medicine, pharmacy, dentistry, architecture, law, veterinary surgery, forestry engineering, etc.

Postgraduate specialist training courses provide the opportunity to obtain a specialized qualification after bachelor's or master's degree. Preparatory courses are not available for postgraduate specialist training courses.
